AUTHOR INDEX

A

Abdel-Latif, I. A., *see* Fahmy, I. R.
Amin, R. C., Hartung, W. H., and Chapman, C. W., diethylaminoethyl dialkylacetates, 243
Anderson, A. J., Fischer, L., and Arrigoni, L., modified assay methods for crude drugs involving the removal of interfering substances by enzymatic digestion. I. Modified assay method for colchicum corm and seed, 319
Andreson, C. A., and Miller, C. E., a contribution to the chemistry of sulfamide, 204
Arrigoni, L., *see* Anderson, A. J.
Auerbach, M. E., *see* McChesney, E. W.

B

Bandelin, F. J., the colorimetric determination of homatropine methylbromide, 10
Bang, H., *see* Martin, C. F.
Banks, C. K., variations in the standardization of iodine solutions for analytical purposes, 6
—— Sultzaberger, J. A., Maurina, F. A., and Hamilton, C. S., the determination of arsenic in organic compounds, 13
Barlow, O. W., *see* Hunt, W. H.
Basu, N. K., and Dandiya, P. C., chemical investigation of *Convolvulus pluricaulis* Chois., 27
Bauer, C. W., and Martin, W. F., the stability and activity of salivary amylase, 188
—— and Masucci, P. E., the action of intestinal enzymes upon cellulose acetate phthalate and butyl stearate enteric-coated tablets, 124
Bay, G., and Gisvold, O., digitalis, a preliminary investigation, 314
Beiler, J. M., *see* Martin, G. J.
Bell, F. K., and Krantz, J. C., Jr., digitalis VII. The effect of various alkalies on the sensitivity of the Baljet reaction for digitoxin, 297
Bickford, C. F., Jones, W. S., and Keene, J. S., micro-determination of molybdenum and tungsten in organic materials, 255
Biro, B., *see* Darker, G. D.
Bobranski, B., and Synowiedski, Z., new syntheses of caffeine and theophylline, 62
Bope, F., *see* Gisvold, O.
Brewer, J. H., aseptic operation and control of ampul filling rooms, 415
Brown, E. A., Krabek, W. B., Skiffington, R. E., and Cruickshank, G. A., the effect of oxine (8-hydroxyquinoline) on the stability of glycerite of hydrogen peroxide, 34
Brown, H. B., *see* Darker, G. D.
Brown, N. G., Kirch, E. R., and Webster G. L., the assay of solanaceous drugs with the aid of an adsorption column, 24
Buckwalter, F. H., and Dickison, H. L., a new absorption delaying vehicle for penicillin, 472
Burlage, H. M., pharmaceutical applications of isopropyl alcohol, III. Solubilities of sedatives, hypnotics, and sulfonamides, 345
Butler, C. L., *see* Costello, C. H.

C

Carol, J., Molitor, J. C., and Haenni, E. O., the determination of estrone, equilin, and equilenin by infrared spectrophotometry, 173
Carr, C. J., *see* Iwamoto, H. K.
Chandler, V. L., Romansky, M. J., Welch, H., Robinson, J. A., Zeller, W. W., Dowling, H. F., and Hirsh, H. L., a method for determining the size and relative weight of penicillin particles and its importance in preparing adequate preparations of liquid penicillin in oil and wax, 21
Chapman, C. W., *see* Amin, R. C.
Chen, K. K., *see* Powell, C. E.
Christenson, G. L., and Shelton, R. S., critical aspects of an acidic germicidal lotion, 354
Christian, J. E., *see* Duncan, J. B.; Hurley, C. J.; Thoms, R. K.
—— the applications of radioactive tracer techniques to pharmacy and pharmaceutical research, 250
Costello, C. H., and Butler, C. L., an investigation of *Piscidia erythrina* (Jamaica dogwood), 89
Cramer, B. J., Schroeder, W., Moran, W. J., Nield, C. H., Edwards, M., Jarowski, C. I., and Puetzer, B., the antibacterial activity of some beta-aroyl acrylic acids, esters and amides, 439
Cramer, D. L., *see* Ward, W. C.
Cruickshank, G. A., *see* Brown, E. A.
Culter, S. H., stability study of penicillin ointment, 370
Curts, G. D., an improved procedure for the extraction of phlorizin, 243

D

Dailey, K., *see* Shay, D. E.
Dale, J. K., *see* Husa, W. J.
Dandiya, P. C., *see* Basu, N. K.
Daniels, T. C., *see* Kumler, W. D.
Darker, G. D., Brown, H. B., Free, A. H., Biro, B., and Goorley, J. T., the assay of bacitracin, 156
de Boer, B., the effects of thiamine hydrochloride upon pentobarbital sodium ("Nembutal") hypnosis and mortality in normal, castrated, and fasting rats, 302
DeKay, H. G., *see* Sperandio, G. J.
De Ritter, E., *see* Hirschberg, E.
Dickison, H. L., *see* Buckwalter, F. H.
Doernberg, S., *see* Hubacher, M. H.
Dowling, H. F., *see* Chandler, V. L.

SUBJECT INDEX

A

Adsorption column, the assay of solanaceous drugs with the aid of, 24
Agar cup-plates, a porcelain mold for aseptically preparing, 327
Alcohol, isopropyl, *see* Isopropyl alcohol
Alkenols, certain substituted, and their chloro analogs, the preparation of, 118
N-Allylbarbital derivatives, mercurated, the synthesis and study of some, 333
Amines, sympathomimetic, *see* Sympathomimetic amines
***dl*-Amphetamine Sulfate** (Benzedrine) and *d*-amphetamine sulfate (Dexedrine), microcrystallographic differentiation of, 519
Ampul filling rooms, aseptic operation and control of, 415
Amylase, salivary, the stability and activity of, 188
Anesthetic effects of some new barbituric acid derivatives administered to dogs, III, 1
Antacid Buffers, a study of. II. Prolonged neutralization, 292
Antibacterial actions of quaternary ammonium sulfonamides, 424
Antibacterial activity of combinations of iodine and human blood fractions, 136
Antibiotics, electrodialysis in the field of, 470
Antihistaminic drugs, 383
Antimalarial plants, Chinese, the identification of, 458
Antiseptic ointments, *see* Ointments, antiseptic
Antisepticity of ointments containing a germicide of the quaternary ammonium type, 272
Antitoxic plasma, equine, the fractionation by alcohol of, 65
Beta-**aroyl acrylic acids,** esters and amides, antibacterial activity of some, 439
Arsenate of lead, acute toxicity of, in animals, 122
Arsenic, the determination of, in organic compounds, 13
Ascaridol, an investigation of the assay of. II. The iodination of terpenes, 465
Ascaridol in oil of chenopodium, 161
Aseptic operation and control of ampul filling rooms, 415
Assay of bacitracin, 156
of desiccated thyroid, a study of the U. S. P. XIII method for, 468
for Gentian Violet, a photoelectric colorimetric, by comparison with a standard powder, 150
of solanaceous drugs with the aid of an adsorption column, 24
Assay methods, modified, for crude drugs involving the removal of interfering substances by enzymatic digestion. I. Modified assay method for colchicum corm and seed, 319
Atropa acuminata Royle ex Lindley, Indian Belladonna, pharmacognostical and chemical studies of, 450
Autonomic drugs, interaction of, on isolated mouse intestine, 339

B

Bacillus subtilis, use of, in the three-hour cylinder-plate assay for penicillin, 54
Bacitracin, the assay of, 156
Barbituric acid derivatives, some new, the anesthetic effects of, administered to dogs, III, 1
Belladonna, Indian, Atropa acuminata Royle ex Lindley, pharmacognostical and chemical studies of, 450
Belladonna extract, assay for, a modification of the U. S. P. method of, 505
Benadryl and pyribenzamine hydrochlorides, identification and differentiation of, microtoxicology. II., 294
Benzedrine, *see dl*-Amphetamine sulfate
Berberine and hydrastine, *see* Hydrastis
Berzelius and pharmacy, 481
Bioassay, for panthenol, a rapid, in rats, 498

"Nembutal" (pentobarbital sodium) hypnosis and mortality, the effects of thiamine hydrochloride upon, in normal, castrated, and fasting rats, 302
Nitrofuran derivatives, the *in vitro* fungistatic action of some, 317
Nonaqueous medium, estimation of some official salts of weak organic acids by titration in a, 240
Nordihydroguaiaretic acid, antioxidant effect of, a preliminary investigation of, in cod-liver oil, 232
a preliminary survey of the occurrence of, in *Larrea divaricata,* 194
Nucleic acids, the chemistry of, some unsolved problems in, 45

O

Ointments, the antisepticity of various, containing a germicide of the quaternary ammonium type, 272
three, antiseptic, effect of particle size, type of base, and a wetting agent on, 368
Organic acids, weak, estimation of some official salts of, by titration in a nonaqueous medium, 240
Organic compounds, arsenic in, the determination of, 13
Oxine (8-hydroxyquinoline), the effect of, on the stability of glycerite of hydrogen peroxide, 34

P

Panthenol, a rapid bioassay in rats for, 498
and pantothenic acid, the comparative stability of, 502
Pantothenic acid and panthenol, the comparative stability of, 502
Penicillin activity *in vitro,* enhancement of, by vitamin K_3, 435
effectiveness, enhancement of, by traces of cobalt, 133
liquid, in oil and wax, a method for determining the size and relative weight of penicillin particles and its importance in preparing adequate preparations of, 21
a new absorption delaying vehicle for, 472
ointment, stability study of, 370
particles, a method for determining the size and relative weight of, and its importance in preparing adequate preparations of liquid penicillin in oil and wax, 21
the three-hour cylinder-plate assay for, use of *Bacillus subtilis* in, 54
Penicillin G, crystalline, the quantitative determination of, by infrared analysis, 409
Penicillin G sodium, the stability of, in aqueous solution, 322
Penicillin K, the estimation of, in commercial penicillin, 115
Pentachloroethane, reactions with. I. Hydrochlorination of ephedrine, 226
Pentobarbital sodium ("Nembutal") hypnosis and mortality, the effects of thiamine hydrochloride upon, in normal, castrated, and fasting rats, 302
Peppermint oils, natural Washington and Oregon, a study of the physical and chemical properties of, 76
Peptic activity, the turbidimetric determination of, 357
Peroxides in mineral oils, colorimetric determination of, 234
Phenolphthalein, yellow, 261
Phlorizin, the extraction of, an improved procedure for, 243
Phospholipids and sodium *N*-alkyl sulfates, applied, the determination of residues of, on rat skin using radioactive tracers, 329
Phosphorus uptake, a study of, in the rat tooth by radioactive tracer techniques, 520
Photoelectric colorimetric assay for Gentian Violet by comparison with a standard powder, 150
Physalis mollis Nuttall—a plant insecticide, chemical studies in Oklahoma plants. VI, 145
Piscidia erythrina (Jamaica Dogwood), an investigation of, 89
Polarographic determination of folic acid and zinc salts in pharmaceuticals, 507
Procaine penicillin G, spectrophotometric determination of procaine in, 343

Psyllium seeds and their mucilages, qualitative and quantitative evaluation of official and unofficial species of, 139
Punarnavā, pharmacognostical studies of, 103
Pyribenzamine and benadryl hydrochlorides, identification and differentiation of, Microtoxicology. II, 294
Pyridine-3-carboxamides, quaternary salts of, 99
Pyridine-3-sulfonamides, N′-substituted, quaternary salts of, 97
Pyrogens, detoxification of, by hydrogen peroxide in some U. S. P. injections, 246

Q

Qualitative and quantitative evaluation of official and unofficial species of Psyllium seeds and their mucilages, 139
Quantitative determination of crystalline penicillin G by infrared analysis, 409
Quantitative microscopic study of certain commercial and vegetable drug starches, 166
Quantitative and qualitative evaluation of official and unofficial species of Psyllium seeds and their mucilages, 139
Quaternary ammonium compounds, germicidal action of, inactivation of the, 57
Quarternary ammonium sulfonamides, the antibacterial actions of, 424
Quercetin, rutin and quercitrin, *see* Rutin, quercitrin and quercetin
